

Sec. Numbers and Titles:

- 1 HGW proprietary announcements
- 2 Classified ads, 10¢/ word.
- 3 Wing Exchange Notices - new owners of old wings.
- 4 Flight Systems Underway
- 5 Hang Glider Calendar; event changes
- 6 Special Announcements
- 7 Meet results, reports; site reports
- 8 'Mistakes I've made' - True h.g. confessions
- 9 Display ads; see rates; welcome all.
- 10 Editorials
- 11 Guest Editorials; welcome double space typed
- 12 World Meets; mail-in meets universal; major and minor open.
- 13 New Product Announcements
- 14 New Companies Introduced
- 15 New Clubs Introduced
- 16 Association Volunteer Actions Needed, AVAN
- 17 Hang Gliding in the news: contributed clippings
- 18 Hang Gliding to be in the news: Do you know what will be? Send it.
- 19 Somebody Will Do It! Proposed projects for consideration.
- 20 Patents; patent abstracts; use of patents; newly issued patents
- 21 Accident and Incident Reviews for the sake of discovery and prevention.
- 22 Ideas in the rough and unfinished way; concepts mostly.
- 23 Why Fly I? The reasons people fly. The gut feelings why we fly.
- 24 Safety Lines. See also sec. 8 and 21.
- 25 Hang Gliding Directory changes, deletions. See also sec. 13,14,15.
- 26 New Titles. Book reviews. Booklets, manuals, pamphlets, films, etc.
- 27 Basic literature recommendations for students and enthusiasts.
- 28 Recreational Flight Day Stories
- 29 Hang Gliding Dictionary; definitions, terminology, terms, usage.
- 30 How To Fly; descriptions of maneuvers, control, handling, special.
- 31 Meteorology for Hang Gliding and Self-Soaring, low and high,
- 32 Aerodynamics of Low Velocity Flight
- 33 Towing: 33-A Self-soar towing; 33-B Cooperative Towing
33-C Fueled Cooperative Towing; boat, car, airplane, winch.
- 34 Snow Skiing; snow ski hang gliding;
- 35 Flying
- 36 Motored Hang Gliding
- 37 Testing Flight Systems; performance testing; robot testing; pilot tests
- 38 Games to Play; events; stancidly activity; events to consider and the development of standardized events for sport and competition:
 - 38-A No wind distance from same point of take-off.
 - 38-B No wind slow speed from same point of take-off.
 - 38-C Distance
 - 38-D Duration
 - 38-E Bomb dropping accuracy (seeds, water, messages, food, 1st aid kits, supplies, survival items)
 - 38-F Target Landing
 - 38-G Precision Maneuvers
- 39 Raw Materials for Flight Systems
- 40 Special Irregular Columns from Correspondents (non-company release)
 - 40-A Francis Rogallo 40-G Tom Price
 - 40-B Art Bean 40-H Dick Henderson
 - 40-C Keith Buchanan and many other writers.
 - 40-D Eddie Paul
 - 40-E Bill Allen
 - 40-F George Uveges
- 41 Newsletter Abstracts - the movement-wide interest items from all of various newsletters, publications, and bulletins of the movement.
 - 41-A , etc: HGW reviews for you hundreds of items
- 42 Hang Glider Company Reports, releases, reviews, promotions, progress reports, personnel changes, ---of over 300 companies.
 - 42.1 Low & Slow
 - 42.2 Kite Systems
 - 42.3 Self-Soar Association
 - 42.4 Hang Glider Weekly
 - 42.5 Hang Glider Shoppe
 - 42.6 Omega Hang Gliders
 - 42.7 Bill Bennett Delta Wings
 - 42.8 Bill Moyes
 - 42.9 Eipperformance
 - 42.10 Icarus; Taras Kiceniuk
 - 42.11 Photo-Chuting; Carl Boenish
 - 42.12 Ultralight Flying Machines; Larry Mauro
 - 42.13 Man Flight Systems; Markowski
 - 42.14 Skycraft Pty Ltd, of Australia
 - 42.15 Volmer Aircraft
 - 42.16 Flight Realities
 - 42.17 Colver Soaring Instruments
 - 42.18 Sailbird Flying Machines
 - 42.19 Zephyr Aircraft
 - 42.20 Jobe Corporation
 - 42.21and over 300 others each have channels to HGW exposure
- 43 Site Technology. See 65 also. Site evaluation; finding; using; keeping; arranging; leasing; building; cleaning; temporary usage.
- 44 Regulations
 - 42-A Universal Self-Soar Patterns; the influence of education on real patterns, habits, practices; true self-responsibility.
 - 42-B Association Membership regulations and recommendations
 - 42-C Government Agency Regulations
 - 42-D Particular Site Regulations

 \$12/52 issues

- 45 First Aid and preparations for such for hang gliding trips ... events
- 46 Model size hang gliders in the news
- 47 Instructor World. How to instruct. Problems of teaching hang gliding. Hangmastering. Hanginstructor. Hanginstructor Examiner. Tests. Written aides. Practice theory. State of the art of teaching hangliding.
- 48 Historical Birdmen
- 49 On Being a Good Student
- 50 REPORTS NEEDED BY SOMEONE; who volunteers to do the report?
- 51 FASTENER technology
- 52 Structures technology (tension, compression, tensegrity, inflatables)
- 53 Fiber, Film, Foam, Honeycomb, Composites, Laminates, Exotics.
- 54 Personal Testimonies! See also, 56, 69.
- 55 Photography Contests
- 56 General letters to the editor. See also 54 and 69
- 57 Consumer Complaints. See also 8,21,24,58,54,69.
- 58 Consumer Praises. See also 57,69.
- 59 Controversial Topics. Hot Seat. Counter Positions.
- 60 Interpowered Flight (Ornithopter, Pedal, Pseudo-Ornithopter interests, contests, Kremer, sport m-p-f, papers, advances)
- 61 Technical Hangliding, copyright for periodical from Self-Soar Assn. HGW will display table of contents of each new issue published.
- 62 "JUST OFF THE PRESS FOR THE FIRST TIME" catalog sheets never available before from Hang Glider Shoppe. If you are building a Hang Glider Shoppe master catalog, send for these new sheets by name. Always specify and include stamp for return postage.
- 63 Movement Trade-Name List ---as we become aware of operations.
- 64 Professional Hang Glider Pilot's column
- 65 ZIP-SITE SYSTEM
- 66 Flying Mammals and Reptiles
- 67 Bird-Flight
- 68 Insect Flight
- 69 "40-free words--Self-Soar membership annual privilege guarantee" Each member of Self-Soar Association is now guaranteed a 40-word free message or ad, if his OTTO membership is made current. New memberships must receive Hang Glider Weekly.
- 70 Recognition and special thanksgiving for spreading the HGW word.
- 71 Christian Kite Club, CKC;
- 72 Quicksilver Club and similar wing type associations
- 73 Hang Gliding Hall of Fame
- 74 Transporting Hang Gliders by use of cars, trucks, vans, bicycles, motorcycles, buses, ski-lifts, trolley cars, trailers, back(s), etc.
- 75 Balloon Drop of hang gliders
- 76 Tail-less Biplane Club---meets here in HGW.
- 77 Tail-less Monoplane Club---meets here
- 78 Volmer Club
- 79 Limp or Non-rigid Hang Glider Club
- 80 Hangtoons (cartoons about and for hangliding)
- 81 Magnus Effect Hang Glider Club
- 82 Hang Glider Mathematics
- 83 Stretched Membrane Hang Glider Club
- 84 Pilot-Carriable Pilot Launchable Self-Soar Primary Glider Club. These gliders can be carried by the self-soarer alone; he can launch the glider alone, but he does not use weight shift for control, but rather he uses 3-axis aerodynamic controls as required. The pilot might be flexibly tethered from the wing or he might be fixedly prone or seated to the primary glider. The most recent entry to this region is the 60 pound Hippie shown in HGW recently or soon. The Volmer Club overlaps this club (sec.78), but the Quicksilver Club does not overlap since weight shift pitch control is used.
- 85 Historical Reproduction Hang Gliders Club
 - 85-A Icarian Wings 85-E Platz Sailing
 - 85-B Lilienthal Hang Gliders 85-F Bamboo Butterfly
 - 85-C Montgomery 1 gliders 85-G John Dickenson Rogallo
 - 85-D 1909,1910 Biplane Hana Gliders 85-H Kilbo-1
- 86 Hang Gliding Science Fiction; Man-Flight Science Fiction;
- 87 Knot Tying for Hang Gliding, Kites, and Tethered aircraft and knots useful in operations related to these regions of interest.
- 88 Sail Making Technology.
- 89 Poetry
- 90 All media art expressing our movement
- 91 Biographies
- 92 Autobiographies
- 93 Bibliographies
- 94 Index to Low & Slow
- 95 Index to Hang Glider Weekly
- 96 Index to Technical Hang Gliding ©
- 97 Hang Glider Club News--each club has a reporter that sends copies of all news items to Hang Glider Weekly. HGW editors will use all it can that has importance to sufficient amount of people. Do not edit the items before sending in copies of club papers. HGW can provide post paid envelopes for this purpose. Please ask for them. Keep HGW on every possible hang gliding mailing list. Keep the movement OPEN. Do the institution thing, but let information flow freely in HGW! Each president should check to see if he does have a channel open to HGweekly.
- 98 Professional Flyers Association Pilot Rating System
- 99 Various national pilot rating systems. Each will be developed.
- 100 OTTO FEATHERS, a universal pilot achievement recognition system. Not a rating system at all. Each feather is a different act, experience, or other defined hang glider achievement. It is ever open-ended to accept YOUR definition of something to do. Name and define Otto feathers as you find it interesting. Distinct ones will receive a permanent Otto feather designation. This retains 'play' in our movement and keeps our hangliding technology open-ended too. Log your Otto feathers real
