Good morning Rosa. My name is Luis J. Andrade and I supervise the Water Waste Enforcement Program. I am not sure if 2800 Torrey Pines Scenic Dr, La Jolla CA 92037 falls under Park & Rec. or a private company. The attached photos were taken by one of our Irrigation Specialists, Jesus Rosas at 10: 59 am on 4-28-16. There are 3 violations against this Glider Port Business/City of San Diego parcel. Please advise:

1. Watering on the wrong day
2. Watering during a rain event and
3. Watering between 10:00 am - 6:00 pm

Good morning Roswitha. The wires you're showing in the picture were there long before I took over ! After the last big storm all the water that flooded the Gliderport shorted out some of the wires so all I did was repair what was there . There was always power to the container I'm replacing . As far as the RVs I don't recall getting any written notice . I thought I was ok having security on site at night?  
Best regards, Robin

Hi Robin,

It has come to our and the City Council's attention that there is a pet pig at the Torrey Pines Gliderport – please take a look at the attached pictures.

The pig will have to be removed immediately and the multiple trailers, vehicles, sheds and mobile homes adjacent to the where this pig is being kept have to be removed within 30 days, since it is a violation of your lease.

Please let me know if you have any questions.

Also, please confirm that you have received this email.

**Subject:** Septic tank question  
**Date:** Monday, August 31, 2015 3:22:00 PM

---

Hi Robin,

We just had a meeting with Park & Rec and Public Utilities to figure out the water issue and the question about sewer connection came up. I told them about the bathroom for your employees and the septic tank you mentioned to me on the phone last week when I asked you. Park & Rec wants to know if there is a permit for the tank, which I am guessing there is not. So their main concern are potential liability issues in case the septic tank leaks, breaks, etc. I think we can figure out the water sub-meter and billing, but we need to address the septic tank. Maybe you can have it inspected to make sure it is in good working condition?

Please let me know if you can do that.

Thank you,

Rose
