To Whom It May Concern,

The La Jolla Shores Association respectfully submits this letter in support of establishing the Torrey Pines City Park Advisory Board and its role in overseeing operations at the Torrey Pines Gliderport.

Our Association believes this matter is vital to the safety of park users, visitors, and the surrounding community. We encourage the City of San Diego to carefully evaluate whether solo-flyer pilots should be required to pay annual membership fees and/or maintain appropriate insurance coverage to fly at the Gliderport. These measures would help ensure accountable and responsible use of this unique coastal resource while preserving safe and equitable access to a valued city park.

Thank you for your attention to this issue and for your continued stewardship of Torrey Pines City Park.

Sincerely,

John Pierce

John Pierce
President, La Jolla Shores Association
